

# VITAJUWEL

Kuwait

## ABOUT VITAJUWEL

Vitajuwel is the modern interpretation of age-old traditions. Many cultures have been vitalizing their water with gemstones and crystals and we; have reinvented this knowledge with a contemporary, sophisticated approach. Rediscovering one of nature's most valuable secrets with unique Vitajuwel gemstone - An ancient way to vitalize, oxygenize and increase the PH level alkaline water with the power of hand-picked gemstones and crystals. Patented worldwide, designed in Germany; and manufactured in Europe, using lead-free glass and fair-traded, conflict-free gemstones and crystals. Vitajuwel revolutionized the way to prepare Vital and fresh water wherever you go.

Vitajuwel products are scientifically proven which makes them an essential accessory in health-seeking household and personals. All the Vitajuwel blends are used primarily to restructure the water first, and then to imprint their unique signature onto water crystals, which you will consume and benefit from. Another vital use of Vitajuwel is a freeing the world from any plastic or unnecessary pollution-increasing products, leaving us an eco-friendly brand with a message of clean living to the whole world.

## VITAJUWEL VISION

We see Vitajuwel in every home, in every company with everyone. We see the vision reflected in the wellbeing of our customers, and the pursuit we are showing towards having everyone around Kuwait and GCC have a Vitajuwel product.

## VITAJUWEL MISSION

Moving towards a plastic-free future and increasing awareness of the importance of drinking water from glass bottle. We aim to reflect our beliefs in the power of crystals by adding elements to each bottle, and present clients with a more sustainable, luxurious and maintaining a product that will help each one moving forward with life, even when it starts with drinking from glass bottles.
